**DEVS MIAMI**

WingIt

Talk → Transcribe → Visualize.

Show Them What You're Saying

Wingit

The Worst Part Of Making Slides...
Is Making The Slides

1 **The Problem**
We've all been there: You want to share something but that would mean.....

PowerPoint

2 **The Solution**
Turn Spoken Words into Structure!

Show them!

With Slides!

3 **Engage Your Audience**
Teach complexity with clarity.

Slides, Images, Bulletpoints,

You explain, WingIt makes them remember.

WingIt

Turns speech into content you can share real time.

Log In & Mic Check

Just Start Talking

Export & Share

Create Account or Login to Yours

Connect microphone

Press start. Start Talking!

WingIt will make visuals.

AI will detect topic shifts.

Stop Presentation. Edit Slides if You Need to change something..

If you loved it, Use them Again!

Wingit
The Roadmap ahead

Theming Engine

Collaborative Editing

Speaker Notes

Data Integrations

Unlock premium AI Voices

FREE

Browser Voice

Uses your device's built-in synthesis engine.

Zero latency

Robotic sound

Instant generation

PREMIUM

FAST High-quality, incredibly fast AI synthesis.

The best balance of speed and cost

$0.015per 1K characters

< 2s Latency

Natural intonation

Pay only for what you use

ULTRA PREMIUM

The industry standard for human-like speech.

Unmatched quality.

$0.030per 1K characters

Studio quality

Rich emotion

Premium voices

Wingit

1 Iterate slide-by-slide without ever touching a layout tool

2 Visualize your key points instantly. Keep the team aligned with zero prep.

3 Turn your meeting notes into a shareable deck

4 Generates as you explain concepts, helping students follow your train of thought visually.

5 Give your audio content a visual dimension

6 Don't just send a recording link. Send a WingIt deck that summarizes the call visually.

How It Works

WingIt uses a multi-stage AI pipeline to ensure low latency and high accuracy.

Audio Processing

Deepgram Nova-2 for ultra-fast transcription

Context Awareness

Our LLM layer detects "slide boundaries" based on topic shifts

Visual Synthesis

We generate React components on the fly to render your slides.

Solve the Blank Page problem.
